

Prepare the Flood Gates...

The Streets of Annapolis will be Flooded with
Activists on January 17th

Join the Alliance for Global Warming Solutions
and hundreds of activists as we descend on the streets
of Annapolis to demand that our elected officials find
solutions to global warming.

Maryland is one of the most vulnerable states in the
nation when it comes to the effects of global warming.
But we are also in a position to be a national leader in
the fight against global warming.

To address this serious problem Maryland must commit
to science-based reductions of global warming pollution
and bring our state toward a clean energy future that will
protect the Chesapeake Bay and promote strong eco-
nomic growth well into the future.

**Join us on Thursday, January 17th at 11:00 am at the
Maryland State House in Annapolis**

Take the day off work and let your voice be heard!
